Revive

CJI's Revive program supports women and men over 16 who are impacted by sexual trauma through supportive group services. We also offer services for partners, families, and communities impacted by sexual harm.

Revive program participants discover that they are not alone and that it helps to talk with others with similar experiences. While Revive promotes self-awareness and healing, we do not provide clinical services such as counseling, therapy, risk assessment, or treatment.

Community is more than just a part of CJI's name; it is a feeling that comes from being in a safe, non-judgemental and supportive space where sharing, learning and acceptance are fostered and encouraged.
